

Characteristics

- Single or dual point lubrication with the possibility of expansion using additional mixing bases (individually controlled).
- No drilling required thanks to the magnet, which ensures rapid and secure application of the pump.
- Available in two versions: manual or with timer.
- Regulation of lubricant and/or air flow delivery.
- Regulation of lubrication cycle frequency.
- Possibility of excluding air flow for oil-only applications.

Advantages

- Rapid and convenient lubrication for dry machining on small machines.
- No mist generation.
- Reduced "set-up" costs of machine tools.
- Longer tool life.

Applications

- Dry working on milling, drilling, tapping and sawing machines.
- Plastic or Woodworking machines.
- Chain lubrication.
- Presstool applications.

Grip

The portable pump that lubricates where you want, when you want

Grip combines the advantages of air/oil lubrication for tools with dry machining components with the ability to apply the pump quickly to machine tools without the need for drilling.

With timer or manual, but always with the magnet

In both versions the magnet, placed on the base or back side of the pump, guarantees a solid grip during the lubrication cycle and the option of moving the *Grip* to another machine.

In addition to the magnet, the possibility of excluding the air-flow for oil-only applications allows a single pump to be used for airless lubrication requirements.

Grip is the ideal solution for small machines, optimisation workshop lubrication processes, flexible regulation of the amount of oil at each point (0 to 30 mm³ per cycle), and it increases tool life.

TECHNICAL SPECIFICATIONS	
Reservoir Capacity	0.5 Litre
Air supply pressure	4 ÷ 6 bar (58.8 ÷ 88.2 psi)
Operating temperature	-5°C ÷ +55 °C (23°F ÷ 131°F)
Delivery	0 to 30 mm ³
Humidity	90% max
Lubricants	LRT oils - Dropsa

DIMENSIONS mm (inches)	
	164 (64.56)
	120 (4.72) manual version
	114 (4.48)
Weight 1.174 Kg (2.58 lb)	

Standard Package ready to use

Grip standard package for both versions, manual and with time, include:

- ✓ Grip pump with adjustable delivery;
- ✓ A/O magnetic block kit with lubrication nozzle and flex tube L=180 mm (7.08 inches)
- ✓ Nylon tube 4 x1,5 black (5 mt. (16.40 ft))
- ✓ Wall mounting plate (2 magnets)

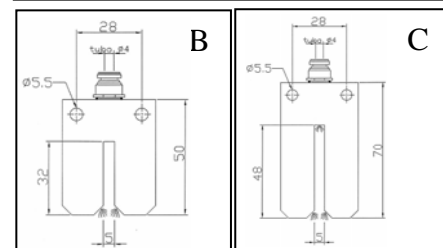

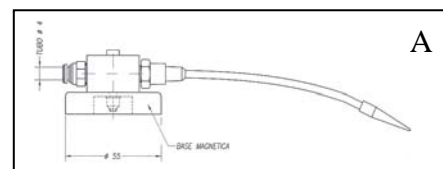

Order your Grip

STANDARD PACKAGE		
Part. Num.	Description	Qty
3135212	Grip timer version	
3135215	Grip manual version	

CHOOSE THE LUBRICANT FOR YOUR SYSTEM	Qtà
3226661 – LRT 30 Oil in 1L bottle	

To maximise the efficiency of this lubrication system Dropsa recommends the use of specific lubricants such as the two it produces: completely non-toxic and suitable for dry machining on aluminium and steel machine tools.

ACCESSORIES AND SPARE PARTS			
Item	Part. num.	Description	Qty
A	3132583	A/O magnetic block kit L=180 mm (7.08 in)	
	3132714	A/O magnetic block kit L=400 mm (15.74 in)	
B	1524486	Lubrication nozzle 32 mm (1.3 in.)	
C	1524487	Lubrication nozzle 48 mm (1.9 in.)	
-	5717242	Nylon tube 4 x 1.5 Black	
-	1524548 (*)	Air/Oil Nozzle	
-	3132861	Extension pneumatic kit (additional doser max 3)	
-	3133265	Extension manual kit (additional doser max 3)
